## Flow Safety into the River of Industries

**INTRODUCTION:** INDUS SHOE INDUSTRIES Incorporated in the year 2016 headed by WOMEN ENTREPRENEUR with topmost leather technologists along with NRIs Team with strong financial support.

**MANUFACTURING PROCESS:** WITH "DESMA" GERMAN Technology MACHINE with Direct Injected Process (DIP) rotary Automatic machine using Huntsman International chemical. The soles are optionally used Double Density and Single Density. Oil-Acid-Alkali Resistant, Electrical Shock Proof, Antistatic, Durable Lightweight, Heat Resistant and Skid Proof, elegant, comfortable. They are made of genuine buffalo printed upper leather in specified thickness and colors. Synthetic non allergitic durable foam backed linings are used. Steel toe caps of 200 joules of impact resistance are particular embedded in uppers for toe protection. These shoes always confirm to IS 15298:2016 part-I & II & EN 20345 accredited labs authorised by Government of india and guaranteed for proper safety performance.

**WORK PALCES:** Hazards exist in every work place and in many forms. Work practices, administrative controls and engineering systems are the most common methods of control. Yet, they cannot be considered as total. In cases of any lapses proper protective equipment comes any and avoid risks.

It is Identified that Shipping , Warehousing , Mining, Packing , Moving, Masonry , Assembling , Gardening , Carpentry , Welding , Freight Handling, Driving, Machinists, Mechanics, Foundries, Electricians, Craters, Machine Operators, Laboures, Industrial Workers are the occupations that demand the use of personal protective equipment. Foot protection is considered to be the most essential in all such areas of operations. Depending on the nature of hazards against which protection is required, Safety shoes are classified as follows:

- 1.Safety toe cap shoes,
- 2.Conductive shoes
- 3.Foundry shoes
- 4.Non sparking shoes {explosive operations}
- 5.Electrical hazard shoes
- 6.Mining shoes.

Indian standard specification for performance requirement of protective footwear covers design, performance , testing and classification. The purpose of this standard is certification. Footwear certified as meeting these requirement standards must pass the tests specified by BIS.

Indus manufactures shoes strictly as per performance standards by BIS , IS 15298-2016 Part I&II and EN 20345. CE Marked, Specification of Industrial Safety Shoes.

## Footwear Size Chart

Sizing System	India follows UK sizing system											
	Sizes											
UK	3	4	5	6	7	8	9	10	11	12	13	14
US	4	5	6	7	8	9	10	11	12	13	14	15
French	37	38	39	40	41	42	43	44	45	46	47	48

## Specification of Industrial Safety Shoes

Sl. No.	Particular	Specification
1	Upper	Full grain Buffalo printed upper leather of 2.0 mm thickness
2	Lining	Synthetic non allergetic, nonwoven, padded,durable linings.
3	Toe cap	Steeltoe cap of 200 joules of impact resistance/Composite toe cap.
4	Sole	PU single/double density sole directly injected on Desma machine.
5	Fastners	Aluminium eyelets/rust proof D-rings.
6	Insole	Synthetic, nonwoven material of 2.0 mm thickness in desired colours
7	Lace	Round nylon laces of above 55 kg breaking strength.
8	Insocks	Soft netlon laminated 5.0 mm thick EVA sheet of 160sh A hardness .
9	Thread	Nylon or polyester20/40/60 count thread.
10	colour	Black/Brown
11	Finish	Wax polished and brushed to required shine.
12	Packing	Each shoe is wrapped in paper and packed in individual boxes. 12 such boxes are packed in each 5-ply carton.

## Shoes Features

Genuine Full Grain Leather Upper

Heat Resistance

Electrical Shock Resistant

Oil Acid Resistant

Steel Toe Cap (200 J) DIN 32568

Water Resistant

Penetration Resistant (Optional)

Anti Static
